MEET
ANDERS FUHR

The talented Aarhus-based designer Anders Fuhr has through the years made many exciting projects and has now expanded in his own company FUHRHOME.

With an eye for design, Anders has captured a wonderful story, using sustainable materials for new products.
All products are handmade and designed in Denmark.

WHY DO YOU MAKE FURNITURE IN SUSTAINABLE MATERIALS?

At FUHRHOME we create furniture with a wide variety of designs, in order for many people with different backgrounds and nationalities to feel comfortable. We make it our clear goal to reuse all kinds of materials as a part of each new design combined with leather and textiles.

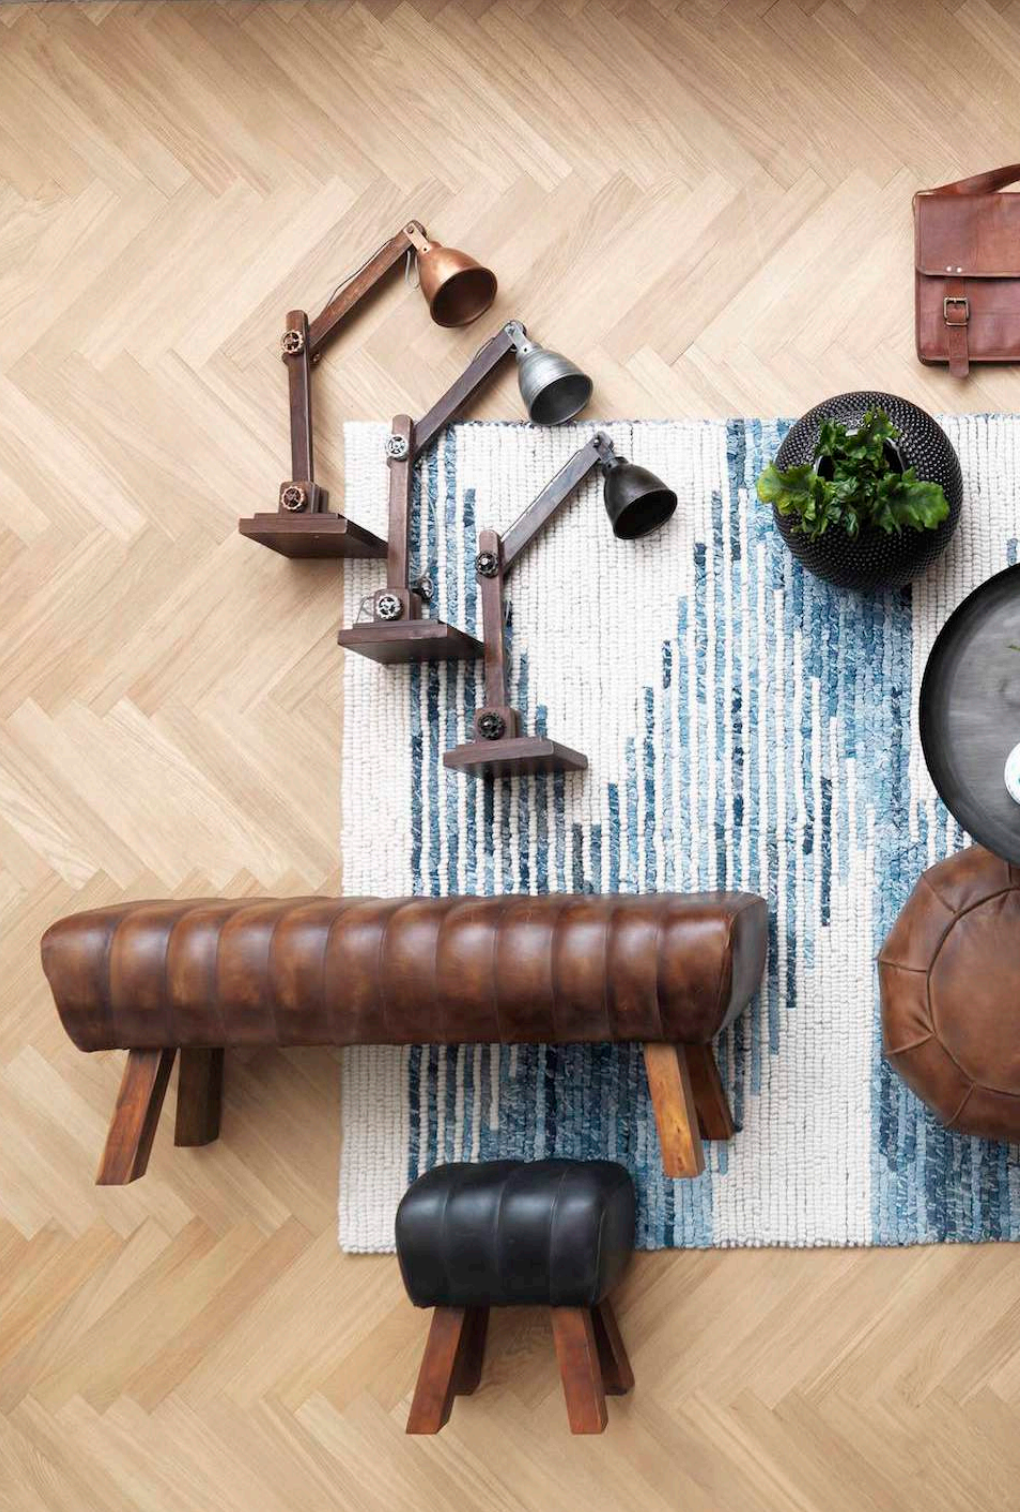

WHERE DO YOU FIND YOUR INSPIRATION?

Our emotional relationship to their surroundings is of course greatly influenced by sensory input and how we interpret them.
We use the things we choose to surround ourselves with, to help us define who we are. From the landscape view to the bedroom window and the city's pulsating sound in the apartment.

- RAW NORDIC -

Concrete, dark surfaces
and simple lines bind our
Nordic side into the
sustainable furniture.

- RAW ELEGANCE -

Let the darkness flow in.
Beautiful, elegant silhouettes from
the most exclusive hotels.
With our side of sustainable
furniture, you will find a new
exclusive beyond as usual.

**We make
furniture with
care.**

**Our vision is
that we should
be able to help
in any kind of
home.**

- RAW URBAN -

Vibes from some of the funkier places. The urban style is an easy way to add more of your own interior pieces. In this style, everything is possible.

USINE

Adding some urban style to your home is a definite way of keeping it on trend, current and invitingly creative.

What's really lovely about this particular style trend, is that it is quite easily and affordably achieved, and in essence, the décor becomes a statement about who you are and what you like, instead of merely following trends.
